PROFESSIONAL SUMMARY

Python developer (fresher) with hands-on experience building REST APIs with FastAPI, working with MySQL/SQL Server, and cleaning and analysing data with Python and SQL. Completed internships at Infosys Springboard and Rooman Technologies, with strong foundations in OOP, data structures, Git and API development, plus Generative AI certifications. Seeking a Python developer role to build backend services, automation and database-driven applications in an Agile team.

TECHNICAL SKILLS

Python:	Python (OOP, data structures, exception handling, modules), FastAPI, REST APIs, JSON, NLP project work
Databases:	MySQL, SQL Server (SQL queries, joins, CRUD operations, query optimization)
Tools:	Git, GitHub, Postman, VS Code, PyCharm, Jupyter Notebook, Power BI
Other Languages:	Java, JavaScript
Web / Frameworks:	Spring Boot, Node.js, Express.js, React.js, HTML5, CSS3
Concepts:	RESTful APIs, MVC, Microservices, DSA, Machine Learning basics, Generative AI, Agile Development, AWS (fundamentals)

PROJECTS

Visual AI Pipeline Builder | Python, FastAPI, React, React Flow, Zustand Source Code

- Developed a **FastAPI** backend that validates user-built pipelines as Directed Acyclic Graphs (DAG) and returns node/edge metrics through REST APIs.
- Built a drag-and-drop AI workflow builder with React Flow and Zustand for real-time node and edge state management.

Job Portal Application | Spring Boot, React, MySQL Source Code

- Built RESTful APIs for job posting and application tracking with MySQL, implementing CRUD operations, validations and secure authentication.
- Delivered user registration, login and job application flows; improved user engagement by 30% through a responsive React UI.

Cyberbullying Detection System | Python, NLP Infosys Springboard

- Built a Python NLP text-classification model for social media content; improved accuracy through data preprocessing and model fine-tuning.

INTERNSHIPS & TRAINING

AI Data Quality Analyst Intern | Rooman Technologies Feb - May 2025

- Cleaned, transformed and processed raw datasets using **Python and SQL**, and visualised results in Power BI dashboards for business teams.
- Optimized SQL queries, reducing data retrieval time by 35%.

Infosys Springboard Internship 5.0 | Infosys Oct - Dec 2024

- Worked on a Python-based NLP project covering data preprocessing, model training and accuracy improvement.

Java Full Stack - Master Program | Besant Technology Aug 2025 - Jan 2026

- Trained in Java, Spring Boot, React and MySQL; developed and deployed RESTful web applications using microservice architecture.

EDUCATION

B.Tech, Electronics and Communication Engineering (80%) | Anantha Lakshmi Institute of Technology and Sciences Dec 2021 - May 2025

Intermediate (80%) | Narayana Junior College Jun 2019 - May 2021

SSC (93%) | SRK Vidyalayam High School Apr 2019

CERTIFICATIONS

- Generative AI for Software Developers Specialization - IBM | Generative AI for Data Analysts Specialization - IBM
- Prompt Engineering Specialization - Vanderbilt University | IBM Front-End Professional Certificate - IBM

ACHIEVEMENTS

- 3 Stars Badge in HackerRank | Best Student of the Year Award, Chinmaya Mission
